

Certainty restored

contract management software that's set up in minutes. Dramatically increase contract visibility, minimize risk, and never miss another renewal date.

[Get Started](#)

ABOUT US

Contract is a contract management system to easily manage and monitor all contracts during the contract life cycle. By doing so you will be able to reduce costs and risks

VALUES

We enable success by aligning our interests with those of our customers, providing the industry's only unconditional guarantee on the software. This ensures that it is never in our interest to exaggerate software capabilities.

Mission

We are on a mission to deliver Contract Lifecycle Management without limitations through agility, and deep expertise in order to transform contracts into relationships, Empower Builders Enable Success

Our Vision

We're leading the way to a digital-first world. Follow us as we continue to change how business gets done. As a trusted solution provider and partner, help organizations become more agile with applications that work the way they do

SERVICES

We offer a full range of services to our customers. Whether you want to start with our basic hosted service and minimum consulting services, or engage our team to do a complete fixed price implementation, we are pleased to provide exceptional service.

Hosted Service

We offer same-day setup of a production knowledgebase on our high-end servers. Get started quickly with a low cost of entry and enjoy the ability to move in-house at any time with our Hybrid SaaS platform.

Implementation Services

We offer full consulting services with our experienced and proven team. We work with companies of all sizes and profiles to help them achieve the best possible implementation of Agiloft. Let us save you time and money, and ensure your success.

Custom Development

We can build a new enterprise application with Agiloft in roughly two to three times the time required to develop and write the specification. A spec that takes a week to develop can typically be implemented in two to three weeks, and we will provide a fixed price contract to prove it.

Administrator and Partner Training Classes

Attend an in-person training course to learn how to automate a unique business process or customize existing Agiloft templates for your organization.

Annual Support and Upgrade Contracts

Customers who purchase Agiloft have a choice of standard or premium annual support contracts. All contracts come with free upgrades and telephone support.

Customer Support

We offer 24/7 support to customers through our Agiloft support portal. Phone support is available during business hours.

CONTRACT

CONTRACT is a contract management system to easily manage and monitor all contracts during the contract life cycle. By doing so you will be able to reduce costs and risks
